

**Your Clinics...Must have Disaster
Recovery Services**

Ambulatory EHR

IMS v12 is CCHIT 2008
Certified for Ambulatory EHR

INTRODUCTION

Suitemed's Backup Service is a reliable way to backup your critical data without the hassle, time and cost associated with traditional tape backup methods, and because it's offsite your vital data is also protected against theft, fire and flood.

WHAT IS OFFSITE BACKUP SERVICE?

Offsite backup Service is an online, automated backup and disaster recovery service for servers, desktops and laptops. It provides peace of mind that data backups aren't forgotten and it's hassle-free because it is fully automated. Once the service is set up, nothing else needs to be done again.

ALL THE FEATURES YOU NEED:

- » Nightly backup to our secure remote servers
- » No tapes, CDs or DVDs to buy which saves you money
- » Email confirmation of verified nightly backups
- » Recoverability from local disaster or data corruption with ease
- » Faster recovery times
- » No third party software to buy or annual renewals

With an automated data backup service and disaster recovery plan, you can focus on what's most important the operations of your clinic. Staff can leave after every shift knowing the information they've entered into patient records, insurance forms, and administrative tasks is saved no matter what happens. Our Backup Service includes support of:

- » Microsoft Exchange
- » Microsoft SQL Server
- » System State & Active Directory
- » Open & Locked Files
- » Microsoft SharePoint
- » 32-Bit & 64-Bit Operating Systems
- » Windows 2000, XP, Vista, Server 2003/2008

WHY ARE WE THE BEST CHOICE?

Advanced File Versioning for Any-point-in-time Recovery

Multiple versions of the same file are stored so you can easily retrieve the version you need at any point in time

Email Confirmations

Automated emails are sent after every completed backup-you can rest assured your backup really occurred

Extreme File Compression (Up to 90%)

Reduce storage costs with our revolutionary compression system that shrinks the file sizes of your stored data without compromising data integrity

Bit Level Backup

Maximize your daily backup speeds and minimize bandwidth usage with our amazing bit level technology

Maximum Security

Multiple levels of encryption to help with compliance-choose up to AES 256-bit

Begin backing up your data in 3 Easy Clicks

- » Select the files you want to backup
- » Schedule the time you want the backups to occur
- » Receive an email confirmation with every automated backup

"Its definitely very important to backup data, but not really easy to do it daily. Now backup solution made it all easy. They backup every night and I feel more secure about it "

- Dharmesh Patel, MD Georgia Family Care, LLC

ABOUT SUITEMED

SuiteMed Software, Inc. is changing the face of healthcare around the globe. Before the age of twenty, the company founder had completed 6 years of college—reflecting the drive and dedication that continue to define Suitemed today. The company was created in 1998 by collaborating with premier software developers and practicing physicians with the goal to provide an innovative suite of *intelligent, integrated* and *intuitive* software solutions supporting the primary process of healthcare delivery.

SuiteMed's revolutionary software solutions connect physicians, patients, labs, pharmacies and long-term care facilities nationwide. Providers are empowered with key knowledge that enhances the way they conduct business and serve their clients. Suitemed's software solutions include: Intelligent Medical Software (IMS) v12, Intelligent Pharmacy Software (IPS) and Intelligent Radiology Management Software (IRMS). With any one of Suitemed's integrated solutions, saving time and money becomes second nature and service continues to be the number one priority.
